## PRESS RELEASE

For immediate release

### AEZ Phoenix

AEZ's Phoenix is a tough yet expressively designed wheel primarily

intended for larger SUVs such as the Cayenne, Mercedes M Class, Discovery III, Range Rover and BMW X5.

The distinctive sculpted spokes give this wheel great strength and enable it to cope with high stresses and loads with ease.

The rim incorporates the new EH2+ ridge to allow the latest run-flat tyres to be fitted for additional safety.

As with all AEZ wheels, the Phoenix has been tested and approved by the tough German TUV authority.

The Phoenix is available in the following sizes...

8 x 17 - £130.00

8,5 x 18 - £170.00

9 x 20 - £250.00

10 x 22 - £330.00

You can now check compatibility for your vehicle by using the Wheel Configurator on the Alcar-Wheelwright website....[www.alcar-wheelwright.co.uk](http://www.alcar-wheelwright.co.uk)

To find your local AEZ dealer please call 07074 255696
