## PRESS RELEASE

For immediate release

### DOTZ Touge Graphite

– *Aesthetics and Power*

The twisty Japanese mountain roads, or 'Touges', are the ultimate playground for perfecting cornering techniques and are where Japanese 'Midnight Racers' learn their craft.

The Dotz Touge Graphite pays homage to the skills of Japanese drivers who race the mountain roads, drifting round curves as though on rails. To Japanese drifters the aesthetics of executing a perfect turn is as important as the overwhelming power of a tuned engine.

The asymmetric spoke structure - combining straight and edgy surfaces, giving it a diamond-shaped appearance - was inspired by the radar dodging technology used by American stealth bombers.

The Dotz Touge's innovative design is characterised by details such as the name being cast into the inner lip, a specially developed graphite color and a concave Dotz centre cap with an embossed logo. The Touge Graphite includes rim pinstripes in yellow, orange, green and white. For additional information visit the DOTZ online shop at [www.dotzmag.com](http://www.dotzmag.com).

Available in sizes 7x16", 7x17", 8x17", 8x18" and 8x19". Numerous bolt patterns and offsets are available making this wheel suitable for most cars. The DOTZ Touge has German TÜV approval.

To find your local DOTZ dealer please call 0700 943359  
For more details visit [www.alcar.co.uk](http://www.alcar.co.uk)

### FEATURES

Available in 4 hole fitment
